

## **COVID-19 Update**

**Updated: March 17, 12 noon**

Texas broadcasters and the TAB staff are closely monitoring the progress of the COVID-19 pandemic. We extend our heartfelt condolences to the families who have lost loved ones and best wishes for a full recovery to those who are battling the infection.

Our plans remain unchanged for the Certified Radio Operator/Chief Operator Certification class on May 18-22 and the 2020 TAB Show July 29-30.

Regarding the 2020 TAB Show, we are in regular contact with the host hotel, JW Marriott. The hotel has shared a comprehensive [strategy](#) for maintaining the cleanliness of the property and the safety and health of their staff and guests.

We are closely watching developments on the pandemic front, including directives and declarations by government and public health officials, for definitive signals that we should alter our plans in the future. TAB will apprise all members and vendors engaged in these events of any changes as soon as they're decided.

Thank you for your support, understanding and patience.
